Wealth Producers Spoiled for Poor Professional Men --- The Needed Advance in the Public Schools.

Written for the Saturday Telegram

Attention has been called to the remarkable growth of our public schools in the number of buildings, pupils and teachers. There has also been quite a decided improvement in the course of study, discipline and the practical results of the work done. But there is still great room for improvement. We have been limited in means and consequently in apparatus and teaching force. This has necessarily prevented the needed expansion of the course of study.

While we have done well under the conditions, we must not be satisfied. We must do better. The time has come to take a decided step forward. There is a greater demand upon the schools than ever. There are new demands, and the public schools cannot serve their purpose unless they meet these demands.

The industrial movement beginning in the south cannot go forward as it should unless the schools broaden their scope to meet its demands. This movement has thrust itself upon us. By education it might have been started a quarter of a century earlier.

Education in the south has directed men to the learned professions and women to nothing. It has made poor lawyers, doctors, preachers and teachers out of many who might have been excellent mechanics. Boys with talent sufficient to have made us industrially the greatest people upon the face of the earth, have gone through the schools, grown to manhood and passed away without having discovered that they possessed that which, when developed, makes individuals and nations rich. Had the talent been discovered and developed by the proper education, today we might boast of our intellectual and material wealth. Let us no longer boast of our undeveloped natural resources, but let us put our hands upon the heads of the boys and girls in the south and say: "These are our jewels." Let us by education develop them, and they will develop our natural resources.

This much by way of introduction to the statement of the fact that our Board of Education have under consideration ways and means for broadening the scope of our city public schools. Some of the ways under consideration are: extending the science course through elementary physics and chemistry; the addition of a commercial department; the introduction of free hand and mechanical drawing in the primary and grammer schools, leading to manual training in the high school; the introduction of vocal music, and one year in the kindergarten before the primary grade.

Of course, all this cannot be done at once, but the time to begin is at hand. By doing this our schools could soon be placed in the front rank of the best schools of the whole country. The additional cost would be comparatively small.

CALLS FOR CONTRIBUTIONS.

The Committee is Practically Without Needed Funds.

Raleigh, N. C. April 20, 1900,

To the Democrats of North Carolina:

We are engaged in a campaign of education. We want every white man in North Carolina to understand the amendment. We want no white man in North Carolina to be misled by the miserable falsehoods and misrepresentations that our enemies are circulating with reference to this measure. It is certain if the white people of the state do understand the amendment, its effect upon the state and the individual citizen, that they will give it such a majority as no measure submitted to the people has ever before received in the history of the state, and will give the ticket representing this measure the most decisive majority of recent years.

To print and distribute literature and to circulate papers and to defray other necessary expenses of such a campaign as we are now engaged in is expensive and requires ready money. Your committee is practically without funds. Indeed, for the last three weeks it has been borrowing money to meet current expenses.

The committee takes this method of appealing to the democrats and all the friends of the good government and white surpremacy in the state for contributions to pay the legitimate and necessary expenses of the campaign. We feel sure that this appeal will not be in vain.

Contributions can be sent directly to the chairman of the committe at Raleigh and will be duly acknowledged.

Yours truly,
F. M. Simmons,
Chairman.

DR. LYMAN ABBOTT TO COME.

WILL PREACH THE COMMENCEMENT SERMON JUNE 3RD.

John Temple Graves, of Georgia, Will Make the Address—Changes in Force and Courses.

Correspondence of the Telegram.

Durham, April 21—The Trinity College catalogue for 1899-1900 is just from the press. It contains one hundred and forty-two pages of printed matter and eight cuts, showing the principal college buildings. The catalogue is printed on better paper than heretofore and has a handsome cover. There is a decided improvement in the mechanical make-up over catalogues of former years, and the new catalogue chronicles many additions and improvements in the work and equipment of the college.

There are some changes in the teaching force. Prof. Merritt, who has been head of both the Latin and Greek departments, becomes Professor of Greek; and Prof. Gill who has been instructor in Latin and Greek, is now adjunct professor of Latin, with entire charge of the department. Prof. Edwards has for two years acted as adjunct professor of French and German. He has been transferred to the Science department and becomes professor of Physics. Prof. Hanaker will give most of his time to Biology, but will give some courses in Geology. Professor Pegram becomes professor of Chemistry and Astronomy. Prof. Durham's name appears in the catalogue for the first time as adjunct professor of Bibical Literature. Instructors in French and German will be elected by the board of trustees at their meeting in June.

The courses of instruction have been enlarged in almost every subject, for undergraduates and graduates. The college is now equipped with instructors and library and laboratory facilities for giving thorough and advanced instruction in most departments of academic learning.

The two most important educational reforms ever inaugurated by the college are just now becoming thoroughly effective. These are, the raising of the minumum requirements for admission to the Freshman class, and the effort to get here an aparatus and instructors that will make it possible for the college to have a graduate department where graduates of this and other colleges may receive competent advanced instructions in all branches of pure learning. The minimum admission requirements have been raised as high as they can be raised until the secondary schools of this section are improved, and there is no college in the South Eastern States that has a higher standard for admission, unless it be Vanderbilt University. The raising of the entrance requirements has made it possible for the college to do better work in its classes, and it is the only policy on the part of the colleges that will foster secondary schools. The number of courses and the facilities for instruction in the graduate department have been greatly enlarged. Sixteen college graduates are registered in this department.

During the present year the Crowell Science building has been thoroughly remodeled and adapted to the uses of the science departments. The Physical, Biological and Chemical laboratories have been well supplied with apparatus. A large number of accessions to the library have been made within thirteen months ending March 1, the date of the librarian's report, over three thousand bound volumes and pamphlets were added. A great many volumes have come in since that date.

The program for commencement is as follows: Sunday, June 3, p. m., baccalaureate address, President J. C. Kilgo; Tuesday June 5, 11 a. m., commencement sermon, Dr. Lyman Abbott, of New York City; Tuesday, June 5, 4. p. m., alumni address, Mr. W. G. Bradshaw, High Point; Tuesday, June 5, 8. p. m., commencement address, Hon John Temple Graves, Atlanta Ga.; Wednesday, June 6, 10:30 a. m., graduating exercises; Wednesday, June 6, 6 p m, reception in honor of graduating class.

WOMAN JUMPS FROM THE BRIDGE

A Sensational Attempt at Suicide in New York.

New York, April 20.—Miss Mattie Dines, of this city, jumped from the Brooklyn bridge this afternoon. Many men have made this leap into the waters of the East river since the bridge has been completed. Most of them have perished, but Miss Dines is the second woman who has ever attempted to end her life in this way. She is now in the Hudson Street Hospital. No bones were broken, but physicians say it is possible she has sustained internal injury.

She is about 32 years old and was formerly part owner of a boarding house in this city. She stepped from a carriage in motion about fifty feet from the bridge tower on the New York end and dropped to the water below. She struck on her right side and after the first splash floated, drifting down the river. She was picked up by the tug Tacomas' crew and taken to the hospital. She had been acting queer before she reached the point where she left the carriage.

BATTLE FOR SUCCESS RAGING

BRITISH ARE FIGHTING FOR THE RELIEF OF WEPENER.

An Artillery Duel Lasted Half of Yesterday and Two of the Boer Guns Silenced.

By Wire to the Telegram.

London, April 21—General Rundle with the third and eighth divisions is hurrying to the relief of Wepener, sweeping Boers backward before them. He is under orders to save Dalgretty's force at all hazzards. A big battle for the relief of the place is now raging. One report says that the Boers have eight to ten thousand men and fifteen guns at Wepener. Several British officers were captured while marching to Wepener. It is reported that the Boers in the night attack of April the eleventh lost wagon loads of killed and wounded. Pretoria reports that the British have attacked Delarey's advance guard. Boshof was repulsed, leaving twenty dead on the field, but continuing the march. Friday Chermside and Rundle came in conflict with the Boers near Dewetsdrop at noon. The fighting continued till dark, principally with the artillery which temporally silenced two Boer guns.

10,000 BOER'S SURROUNDED.

London, April 21—Despatches from Bloemfontein indicate the position of the Boer forces attacking Wepener as critical. Chermside and Rundle with twenty thousand men have ten thousand Boers nearly surrounded. It will be difficult for the Boers to escape, being cornered.

FLOOD DAMAGE $3,000,000.

A Robber's Lair Under Twenty Feet of Water.

By Wire to the Telegram.

New Orleans, April 21. — Floods caused, at a conservative estimate, $3,000,000 damage to central and southern Mississippi, exclusive of the damage sustained by railroads. Columbia estimates its damage at half a million. Elchory, Miss., is surrounded by Pearl river which is higher than for many years. Honey island, the rendezvous of the noted train robber Busch is under twenty feet of water. Half a score of the towns are cut off from the outside world.

A THOUSAND TONGUES.

Could not express the rapture of Annie E. Springer, of 1125 Howard st., Philadelphia, Pa. when she found that Dr. King's New Discovery for Consumption had completely cured her of a hacking cough that for many years had made life a burden. All other remedies and doctors could give her no help, but she says of this Royal Cure—"it soon removed the pain in my chest and I can now sleep soundly, something I can scarcely remember doing before. I feel like sounding its praises throughout the Universe." So will every one who tries Dr. Kings' New Discovery for any trouble of the Throat, Chest or Lungs. Price 50c. and $1. Trial bottles free at C. E. Holton's drug store; every bottle guaranteed.

Tommy—"Pop, do ministers belong to labor unions?" Tommy's Pop—"Ceratinly not." Tommy—"Well when they marry people don't they charge union rates?"

W. W. Mayhew, Merton, Wis., says, "I consider One Minute Cough Cure a most wonderful medicine, quick and safe." It is the only harmless remedy that gives immediate results. It cures coughs, colds, croup, bronchitis, grippe, whooping cough, pneumonia and all throat and lung diseases. It's early use prevents consumption. Children always like it and mothers endorse it. Howard Gardner.

Cheaply—"What do you think of my new $6 ready-made suit?" Wigwag—"Do they give rain checks with them?"

RHEUMATISM—CATARRAH—DISEASES CURED BY B. B. B.

It is the deep-seated, obstinate cases of catarrh and rheumatism that B. B. B. (Botanic Blood Balm) cures. It matters not what other treatments, doctors, sprays, liniments, medicated air, blood purifiers, have failed to do, B. B. B. always promptly reaches the real cause and roots out and drives from the bones, joints, mucuous membrane, and entire system the specific poison in the blood that causes rheumatism and catarrh. B. B. B. is the only remedy strong enough to do this and cure and so there can never be a return to the symptoms. Don't give up hope, but try B. B. B. (Botanic Blood Balm) or 3 Bs.

For sale by druggists and Howard Gardner, in Greensboro, at $1 per large bottle, or 6 large bottles (full treatment) $5. To prove our faith in B. B. B. we will send a trial bottle free to sufferers, so they may test the remedy at our expense. Address Blood Balm Co., Atlanta, Ga.

THE FATAL PLAGUE IN MANILA

THIRTEEN DEATHS IN THE CITY DURING THE WEEK.

Price of Food is Exhorbitant—A Force Gone Off to Conquer New Worlds. Plague Among Cattle.

Manila, April 21—Col. Harding, with a battallion of the twenty-ninth volunteers sailed today for Marinduque and Masbate islands south of Luzon and north of Biscayas. It is not anticipated that there will be any opposition to occupation.

There have been thirteen deaths from the plague during this week. The native market, in the center of the city is quarantined and a guard of troops placed around it. The cattle brought here from Singapoor have introduced a dreaded foot and mouth disease. The quarantine has been declared against cattle from that place in addition to that already in force against the north of Luzon and Batangas. Prices of food supplies in the city continue exorbitant.

SATURDAY, APRIL 21 1900.

IS LIFE WORTH LIVING?

Despondent and miserable, J. J. Newman asked himself the oft repeated question, "Is life worth living?" and in his melancholy mood, wrote "No" in his diary. Then, as if to be rid of a worthless thing, he laid himself down in a lonely house, piled dynamite upon his breast, fired a quick fuse, and waited with insane stoicism till the explosion tore his poor body into atoms. Thus was the fearful decision that his life was not worth living, executed. And such terrible answers do many miserable creatures give to the age-worn question. With the rope, with the drug, by the bullet or by the river they answer it. And do they answer rightly? Partly. Is life worth the trouble of living? No—and yes, a thousand times yes!

A young man starts in life whith the bright fields of the future stretching boundless before him. His path is strewn with the flowers of life's fairest blessings, and on his right and left the golden dewdrops of happiness sparkle like gems in handsome settings; behind him the hallowed recollections of a loved home and noble parents; with him now the beloved of his choice, who loves him more than aught else, believing in him, counseling with him, dependent upon him, clinging to him, with infinite faith and unalloyed devotion. But, as if tired of drinking from the bubbling fount of happiness, he today dallies a moment with the tempter in some guise—wine, gaming, forbidden ambition—in any one of the thousand lurking forms of the serpent. 'Tis but a moment, and he thinks little of it. But tomorrow he spends an hour, next week a day, next year he plunges into the full oflod of a wrecked life, is caught in the whirlpool, and if he is inclined even to cry out, his faint voice is lost in clash of waters and the mocking voice of the tempter gleefully watching him. Home ruined, wife dying by slow torture, children in rags and wretchedness, a life wrecked, the blackness of the future unstreaked by a single rift, soul and body bound in sin and scouraged by recollection—is THAT life worth living? No, a thousand times no, and the sooner the rope, the drug, the river, the better for it and the world.

But, thank God, that though such lives as these are many, they are not in the majority, and there is a life worth living. It is found in every walk of society, from the humbler paths to the most exalted station. It comes to him who never entertains the tempter, to him who lives with a purpose and knows and does his mission, whatever it be. It is found behind the plow, in the hand on the throttle, behind the counter and at the desk. It is known and enjoyed by him who works cheerfully and understandingly. To be sure it is not without its troubles, its sorrows, its cares, its bitters, but the cry of victory over these is sweetest music to the ear, and he who bears it walks with head erect, and countenance beaming, not in mere pride over his fellows, but in conscious knowledge of duty done, of work accomplished, of mission filled, of mankind helped, of Maker pleased, of conscious applauding, joy in living. Breathing the higher atmosphere of life, he revels in very pride and happiness that he lives in such a day of crowning glory, "when to be living is sublime," and regrets only that the span of life cannot be doubled, that he might at least catch some glimpse of the glorious future now but dawning. Is life worth living? Such an one, yes, to patriarchal limits.

Populist congressmen are represented in our Washington special this morning as being disgusted with Senator Butler for being for Bryan and yet defeating a proposition in the Populist State convention to support the Bryan electors already in the field. They do not know him.—Charlotte Observer.

Congressman Southerland certainly must know him well, because this worthy told the Populist convention that Butler had no peer in the Senate. Doubless the Nebraska freshy would like to add a postscript telling in what particular the chisel-faced statesman is peerless.

The Mob Did the Work for Peters Before the Tree Was Reachcd.

Bluefield, W. Va., April 20.—John Peters, colored, who assaulted Kate Ritchie, a 16-year-old white girl, near Tazewell, on Wednesday, was lynched last night. Peters had been captured with the aid of bloodhounds and placed in jail at Tazewell.

At midnight masked men broke open the door with axes. A rope was placed around Peters' neck and he was dragged 200 yards down the road toward the woods. Hundreds of shots were fired into his body while he was being dragged, and before the woods were reached he was dead. The rope was then thrown over a tree and he was drawn up.

Municipal Ownership of Public Conveniences—Light is Breaking on the Trust Question.

Written for the Saturday Telegram.

While the recent report of the City Treasurer, showing that the city's finances are in a healthier condition than they have been for years, was most gratifying, the fact remains that during the last ten months there has been much interest and dissatisfaction on account of the seeming chronic state of emptiness on the part of the City Treasury.

Merchants who have furnished the city supplies, school teachers and others employees of the municipality have been subjected to much inconvenience and hardship. City warrants have naturally fallen into disfavor with those who have had to wait several months to realize on them. We need a remedy for this, and it is needed bad. Would not some such plan as the following meet the difficulty and provide the remedy?

First: Let section 50, 51, and 52 of the Charter of the City of Greensboro be enforced. These sections provide that the collection of the city taxes shall be completed on or before October 1st of each year, and that such taxes as are not paid at that date shall be forthwith collected by distress and sale. One trouble with our city finances is that we have been just six months behind time with the collection of taxes.

Second: The city's warrants shou'd be paid in the order in which they are issued, and whenever the city has funds in hand, let it be advertised that warrants between certain numbers will be paid upon presentation, and further let all warrants bear interest until advertised as above, said advertisement to stop all interest If this system were adopted all the banks of Greensboro would readily handle the city's paper at its face; for interest would accrue until readiness for payment is advertised, and then payment would be made in regular order of sequence without favoritism. This would work no hardship to the city because interest would accrue only on such warrants as the city issues without the wherewith to pay, in which case the city warrant becomes in effect a thirty or sixty or ninety days acceptance, and on such paper the city should pay interest as well as other people who borrow. This plan is not an experiment. It has been tested in some cities with most satisfactory results. If the city charter does not admit of the issue of interest bearing warrants, amend the charter.

MUNICIPAL OWNERSHIP.

One of the foremost questions of the day is that of municipal ownership of public franchises or public utilities, as it is sometimes called. The city fathers of every progressive city in the land have been studying this question of municipal economy. In some of the larger cities in the West, it has overshadowed all other local political issues, and the sentiment is surely crystalizing that municipal ownership is the thing. It has been demonstrated in the experience of a few cities where the water works and electric light plants are owned by the municipality, that under good management these public conveniences can be had and enjoyed without expense to the city, the revenue from private consumers paying the cost of operation. There seems to be a preponderance of evidence that it is unwise and impolitic for a city to part with any public franchise, for the reason that the market value of these franchises increases steadily with the municipal growth and progress. When Greensboro has become a city of 50,000 people, these public franchises, water supply, electric lighting, street railway, telephone service, et cetera, will be magnificent assets, and no consideration should induce a city to part with any of these rich possessions.

LIGHT BREAKING ON THE SUBJECT OF THE TRUST.

Some weeks ago, we stated in this column that the trust "is an evolution in business, the general tendency of trade, a fixed business fact, and that no law can suppress the trust without violating the inalienable property right which is exercised every time a trust is formed." Individuals or corporations in the same line of business sell their separate interes's to a larger corporation which they form among themselves, and in this way all trusts are now created. This right to sell cannot be reached by law because it is fundamental, and we argued from this that all talk of stamping the trust out of existence is empty vaporing and that the only effective way to treat the subject is to accept the inevitable and make th best of it by legislative supervision and control. This position is supported by an article in the April number of the Review of Reviews on the subject, "A Remedy for the Evils of Trusts." The article deals especially with the recent report made to Congress by the United States Industrial Commission. This non-partisan commission consisting of able, impartial men, appointed by Congress for the purpose, has made a thorough investigation of the subject and has handed in its conclusions. The report states that "industrial combinations have become fixtures in our business life;" that "their power for evil should be destroyed and their means for good preserved;" that "they should be required to publish annually a properly aundited report showing in reasonable detail their as, sets and liabilities, with profit and loss; such report and aundit under oath subject to government inspection. The purpose of such publicity is to encourage competition when profits become excessive, thus protecting consumers against too high prices and to guard the interests of employees by a knowledge of the financial condition of the business in which they are employed." In other words this expert board of inquiry recommends publicity as the remedy for the evils of trusts. This will doubtless accomplish much in this direction Add to it governmental supervision and control as in he case of railroads and the telgraph, and the problem would seem to have been solved.

The real significance, however, of the report of this industrial commission is the distinct recognition of the fact that "industrial combinations have become fixtures in our business life." There has been more or less agitation or legislation in every State of the Union against trusts all of which has amounted to nothing because it has all proceeded upon the futile, impossible idea that trusts can be annihilated. Political parties and legislatures have spent enough idle, fruitless time and talk on this subject. Let them turn their attention to something practical and possible, namely the regulation of trusts. Let us have in the treatment of this subject less of the political demagogue and more hard business sense.

HIS LIFE WAS SAVED.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it and now am well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and $1.00. Trial bottles free at C. E. Holton's drug store; every bottle guaranteed.

The spring fever germ is on deck.

A LIFE AND DEATH FIGHT

Mr. W. A. Hines, of Manchester, Iowa, writing of his almost miraculous escape from death says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even it cost $5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50 cents and $1.00. Trial bottles free at C. E. Holton's drug store.

The great question of the day—"What is the score?"

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. For sale by Grissom & Fordham.

The careful housewife doesn't want a carpet that can't be beaten.

PREVENTED A TRAGEDY.

Timely information given Mrs. George Long, of New Straitsville, O., prevented a dreadful tragedy and saved two lives. A frightful cough had kept her awake every night. She tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and $1 00. Every bottle guaranteed. Trial bottles free at C. E. Holton's drug store.

FOR THE BABIES.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucous, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by C. E. Holton, druggist.

A NIGHT OF TERROR.

"Awful anxiety was felt for the widow of the brave General Burnham, of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and $1.00. Trial bottles free at C. E. Holton's drug store.

White Delivery Wagons have been a distinguishing mark of the Greensboro Steam Laundry for a number of years. Our customers have learned to "look out for the white wagons."

Competitors have seen fit to imitate our wagons, therefore we deem it wise to make a change.

Our wagons are now in the shop. About May 1st they will come out green, our future color. In the mean time would respectfully request our friends and patrons to BEWARE of the white laundry wagons and see to it that the right driver gets the bundle. THE ANCIENT CHAFING DISH.

IT LACKS A GREAT DEAL OF BEING A MODERN UNTENSIL.

Was Used in the Time of Lewis XV And Was Costly—A Valuable Article—Receipts.

"We may live without poetry, music and art,
We may live without conscience and live without heart,
We may live without friends, we may live without books,
But civilized men cannot live without cooks.

He may live without books—what is Knowledge but grieving?
He may live without hope—what is hope but deceiving?
He may live without love—what is passion but pining?
But where is the man that can live without dining?

—Owen Meredith.

The chafing dish is not, as many suppose, a utensil of modern invention. Although its origin is enveloped in darkness, we read of its being used as far back as the time of Louis XV. These dishes were extremely handsome, and cost a small fortune. Fortunately for those of us who have not purses well filled, there is a trifling difference between those and the modern chafing dishes. A very good one can be bought for such a small sum that it is a luxury almost every one can enjoy. The chafing dish is now considered among the indispensables in the well conducted home. We cannot doubt it has come to stay, and to be able to prepare tempting, delicious, dishes on it is an accomplishment every woman should possess. The best grade of alcohol should always be used. It gives more heat, burns without an odor and in the end proves less expensive. The flame of the lamp should always be extinguished as soon as the cooking is accomplished. I should advise an unskilled person to cook over the hot water pan, especially in making welsh rarebit. And last, but by no means least, remember that accurate measurements are essential for good results.

EGGS A LA SUISSE.

Melt one tablespoonful of butter in blazer, add one-half cup thin cream, and as soon as cream reaches the boiling point, slip in carefully three eggs, one at a time. Place over hot water pan, sprinkle with salt and pepper, and a few grains of cayenne. When whites are nearly firm, sprinkle with grated cheese, and finish the cooking. Serve on circular pieces of buttered toast. Strain cream remaining in pan over eggs.

SOUFFLED EGG.

Beat the white of one egg until stiff, and season with salt. Put into a tumbler, and place tumbler in pan of warm water, allowing water to heat gradually until boiling point is reached, when egg is cooked. As the white rises, make a depression and drop in the yolk.

DEVILLED TOMATOES.

Wipe, peel, and slice crosswise three tomatoes. Season with salt and pepper, coat with flour, and cook in a hot blazer until thoroughly heated, using enough butter to prevent burning. Cream one-fourth cup butter, add two tea-spoons powdered sugar, one teaspoon mustard, one-fourth tea-spoon salt, a few grains cayenne, the yolk of one hard boiled egg, one egg slightly beaten, and two tablespoons vinegar. Cook over hot water, stirring constantly, until it thickens. Pour over tomatoes.

SWEETBREADS WITH ASPARAGUS TIPS.

Prepare and saute one pair sweetbreads. Melt two tablespoons butter add two tablespoons flour mixed with one-fourth teaspoon salt and a few grains pepper. Pour on gradually one cup milk, then add one cup asparagus tips rinsed and drained. Pour around sweetbreads just before serving.

CHICKENS LIVERS WITH MADERIA SAUCE.

Clean and separate livers, sprinkle with salt and pepper, dredge with flour, and saute in butter. Brown two tablespoons butter, add three tablespoonsful flour, and when well browned, pour on gradually one cup brown stock. Season with salt and pepper. Reheat livers and sauce, and add two tablespoons Maderia wine.

CHIKCEN A LA REINE

Cream two tablespoons butter and add the yolks of three hard boiled eggs, rubbed to a paste. Soak one-fourth cup cracker crumbs in one-fourth cup milk and add to the egg mixture. Pour on gradually one cup hot chicken stock, then add one cup cooked chicken, finely cut. Season with salt, paprika and celery salt Serve on toast.

CREAMED MUSHROOMS.

Prepare one-half pound mushrooms, and cook in two tablespoons butter, eight minutes. Add one and one-half tablespoons flour, and when well mixed add two-thirds cup cream. Season with salt and pepper, and when boiling point is reached add one half tablespoon of wine. Served on toast.

WELSH RAREBIT.

Melt one tablespoon of butter and add one pound of cheese cut in small pieces. Beat thoroughly an egg, and withit mix one small teaspoonful of mustard, one half teaspoonful of salt, a pinch of Cayenne, and add this to the cheese when nearly melted. Lastly stir in slowly one cupful of ale or beer (milk can be used) with a teaspoonful of Worcestershire sauce. Cook until it thickens, stirring constantly, taking care that it does not curdle. Serve hot on toast or crackers.

SOUFFLE AU RHUM.

Beat the yolks of two eggs until thick and lemon colored. Add three tablespoons powdered sugar and one tablespoon rum. Beat the whites of four eggs until stiff and dry, and cut and fold into the mixture. Grease blazer with clarified butter, pour in one-half the mixture and brown delicately. Fold and turn same as an omlete. Care should be taken to lift salt, and one cup each milk and thin cream; then add two tablespoons the blazer that the souffle may brown evenly Pour in remaining mixture and proceed as before.

HAMBURG CREAM.

Mix the grated rind and juice of ore half lemon; add the yolk, of four eggs, well beaten, mixed with one-half cup sugar, and cook over hot water until mixture thickens. Stir in the whites of four eggs, beaten stiff, pour into small glasses, chill, and serve with lady fingers.

MACAROON PUDDING.

Soak twelve macaroons in sherry wine, ten minutes. Beat two eggs slightly, add four and one-half tablespoon sugar onef-ourth teaspoon, blanched and chopped almonds, one-fourth teaspoon almond extract, and four finely pounded macaroons. Turn mixture into chafing dish, arrange soaked macaroons on top, cover, and cook over hot water thirty minutes.

DEVILLED ALMONDS.

Blanch and shred two ounces almonds, cook until brown, using enough butter to prevent burning. Mix two tablespoons chopped pickles, one tablespoon each Chutney and Worcestershire sauce, one-fourth teaspoon salt, and a few grains cayenne. Add to nuts and serve as soon as thoroughly heated.

ALE POSSET.

Melt one tablespoon butter, add one tablespoon flour, and pour on gradually one cup milk mixed with one egg, slightly beaten. As soon as mixture thickens, add gradually one cup ale, stirring constantly. Season with salt and cayenne. This is a popular English drink on a cold winter's night, and is accompanied with toasted crackers and cheese.

MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine, and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on C. E. Holton, druggist, and get a trial bottle free, Regular size 50 and $1. Every bottle guaranteed or price refunded.

ROBBED THE GRAVE.

A startling incideat, of which Mr. John Oliver, of Philadeldhia, was the subject, is narrated by him as follows; "I was in a most dreadful condition tion. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters: and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

CURIOUS CUCKOOS.

The cuckoo is generally known only as a bird with a very monotonous note: a continuous cry of "cuckoo, cuckoo" over and over again. Among naturalists, however, the cuckoo is known as a bird that never builds a nest for itself, but takes advantage of one already built by some more industrious bird.

There is a good deal of the cuckoo about these advertisers who, instead of making a success of their own, seek to profit by the success which some one else has made with much effort and labor. It is so with those imitations of Dr. Pierce's methods, by which free medical advice is offered, although those who make the offer are without qualified medical ability or experience. And the cry raised in some cases of "woman, woman, woman write to woman" makes the resemblance to the cuckoo even stronger.

There is as far as known no qualified woman physician connected with any proprietary medicine establishment, and none therefore competent to give medical advice. It is certain that there is no one, man or woman, who can offer free medical advice backed by such knowledge and experience as is possessed by Dr. R. V. Pierce, chief consulting physician to the World's Dispensary, Buffalo, N. Y. For over thirty years Dr. Pierce has made a specialty of the treatment of diseases peculiar to women. In that time he has treated over half-a-million women, ninety-eight per cent. of whom have been perfectly cured. Every sick woman is invited to consult Dr. Pierce by letter absolutely without charge or cost. Every letter is held as strictly private and sacredly confidential, and all answers are mailed securely sealed in perfectly plain envelopes bearing no printing whatever upon them.

Dr. Pierce's Favorite Prescription makes Weak Women Strong and Sick Women Well.

The engine and five cars of the eastbound fast train went through a bridge near Cochrane, Ind., last night. Engineer George Crane and Fireman Frank Reynolds were killed and Brakeman C. W. Hook was probably fatally injured. One of the wrecked cars was loaded with whiskey which caught fire and burned the bridge as well as the wreckage.

QUESTIONS ANSWERED.S

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and othaches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by Grissom & Fordham.

THE HOSPITAL NOW LAUNCHED

THE DOCTORS MET LAST NIGHT AND ORGANIZED.

The Work of Establishing the Enterprise Has Begun Under the Most Favorable Auspices.

As previously stated in the columns of the Telegram the stated meeting of physicians at the S. L. & T. building was held last night, and much enthusiasm was manifested. The object of the meeting was stated by Dr. Edward Baum, the same being to establish and operate a first-class hospital in Greensboro.

Dr. Chas. Roberson was made temporary chairman and Dr. A. E. Ledbetter temporary secretary. The nomination and election of officers for the ensuing term was proceeded with and they are as follows:

President—Dr. Chas. Roberson.

First Vice-President—Dr. A. E. Ledbetter.

Second Vice-President—Dr. C. L. Scott.

Treasurer—Dr. Jno. Thomas.

Secretary—Dr. Edw. Baum.

Finance Committee—Drs. J. T. J. Battle, E. L. Stamey, A. M. Gove, J. Pinkney Turner, W. P. Beall, W. J. Meddows and ex-officio treasurer.

Medical Board—Drs. W. P. Beall, A. R. Wilson, E. R. Michaux, J. G. Broadnax, R. L. Rierson, J. T. J. Battle, B. W. Best, Chas. Roberson, J. Pinkney Turner, W. J. Richardson, J E. Brooks, A. E. Ledbetter, W. J. Meddows, Chas. E. Scott, E. L. Stamey, D. R. Schenck, Edw. Baum, Jno. Thames, H. B. Marley, J. J. Bryan, R. K. Gregory, Joy Harris and A. M. Gove.

The finance committee will proceed at once to raise funds by popular contributions. Another meeting will be held soon and progress reported, at which time a board of trustees will be elected from the business men of Greensboro.

We hope every citizen will encourage this enterprise and aid the physicians in the work they have undertaken. It is one worthy the support of the whole community.

DEFINITION OF A "SCAB."

No Perceptible Change Today in the Strike Situation.

The strike situation wags wearily on today, with both the strikers and the railroad people claiming they are all right. The Journal of Labor, which came in from Atlanta last night, contains the following:

Greensboro, N. C.—Company hard put. Sent out special train on Mt. Airy division with clerks who are not operators to handle freight business.

Greensboro, N. C.—My men have positive instructions not to transgress the law and not to incite others to do so, and I have absolute faith in them, while there has been some wire cutting in this territory my men were in no way mixed up in it. Swain.

In conversation with Mr. Swain, who is in charge of this division of the strike, a Telegram man asked him some questions about the term "scab" as applied to those who have taken the strikers' places.

"The best definition of a scab that I have ever seen," he replied, "is that given by the prosecuting counsel in a conspiracy trial in England, which is as follows:

"A 'Scab' is to his trade what a traitor is to his country, and though both may be useful in troublesome times, they are detested when peace returns, by all. A "Scab" is the last to contribute assistance, and the first to grasp a benefit he never labored to procure. He cares only for himself; he sees not beyond the extent of a day, and for a momentary approbation, he would betray friends, family and country. In short he is a traitor on a small scale, who first sells the journeyman and is himself afterwards sold in turn by his employer, until at last he is despised by both, and detested by all. He is an enemy to himself, to the present age and to prosperity."

That is pretty strong language, and in this connection it would be interesting to hear a so-called scab define a striker.

There are no reported additions to the force of the strikers today and no apparent change in the situation.

Advertisers.

Pearce has tuberose and caladium bulbs for sale.

The special sale at D. Bendheim & Sons will be continued Monday with many new and desirable bargains added to the list. See their new ad. to day.

Some exceedingly handsome pictures, plush and wicker rockers are displayed in Mr. McDuffie's show windows.

Ladies do not want to make mistakes. To avoid doing so read the new ad. of J. M. Hendrix & Co.

How to have real enjoyment in reading or work may be learned by taking a look at the ad. of Drs. Moore today.

Stinging, burning feet can be done away with at very little cost by the use of a pair of our tread easy shoes made from the kind of leather through which the feet can breathe. You will never know what real foot comfort is until you wear a pair of them.

LITTLE DROPS OF WATER.

Make Muddy Streets—Little Items Recorded Here.

The Euterpe club will meet Monday afternoon with Miss Friend.

The many friends of T. Moody Stroud will regret to hear of his illness at his home in Sandford. We hope he will speedily recover.

The condition of Mrs. W. W. Workman is still very critical, little hope being entertained for her recovery. She has been a sufferer for several months.

On account of the very inclement weather last night the meeting of the Shakespeare club was postponed. It will meet Tuesday evening at Mr. W. R. Brooks', on Summit avenue.

Mrs. J. B. Yates, sister of Mr. J. C. Olive, of this place, died yesterday at her home in Chatham county. Mrs. Yates was a noble Christian woman and a neice of the late Rev. Matthew T. Yates, missionary to China.

About three o'clock this afternoon Dr. Benbow was looking for a policeman to wait upon some tramps who had built a fire and were cooking in the old Crown Cotton Mill building.

The literary meeting of West Market Street Epworth League to be held next Monday night promises to be of more than usual interest. The subject chosen for the occasion is "Our Hymn Book." In addition to readings and papers bearing upon the subject, there will be some special music. All are invited.

Democratic Primaries.

The Democrats of the city of Greensboro are hereby called to assemble in their ward meetings on Thursday, May 3rd at 8:30 p. m., at the following places:

First ward, Farmers warehouse.

Second ward, Lindsey street graded school house.

Third ward, market house.

Fourth ward, Banner warehouse

Fifth ward, Ross building, 112 Lewis street.

Sixth ward, Asheboro street graded school building.

At said ward meetings each ward shall select two candidates for aldermen and one member of the city executive committee. A vote shall be taken in the ward meetings for candidates for mayor and said vote for mayor shall be sent to the general convention to be held in the court house on Friday night May 4th at 8:30 o'clock.

If any candidate for mayor shall receive a majority of the votes cast in the wards he shall be the nominee of the convention. If no candidate for Mayor receives a majority in the ward meetings, then the convention shall proceed to ballot for a candidate for mayor.

In order to avoid confusion, it is requested that each ward assemble in the court house in the portion which will be assigned to it and each have a chairman and two tellers.

C. H. Ireland, Chairman.

John Michaux, Sec.

"I can always come nearer finding what I want in children's shoes here than anywhere else in town," said a lady in our store last week. Just now our line of children's saldals, oxfords, and shoes is specially full and complete. Thacker & Brockmann.

SALMESEN of experience wanted to sell territory for article of merit. 'Tis catchy and a money maker. A 1 man can make good contract. Address, "Patentee," Box 10, city.

Bare feet are almost preferable to some shoes. The kind that it is necessary to break in generally make a man break out and say things. We had made purposely for comfort a lot of men's fine kid shoes in lace and congress. The prices are right.

Sealed bids will be received by the city of Greensboro, N. C. building committee for the erection of a new city hall, market and auditorium building for said city.

Plans for the work will be found on file at the office of J. M. Walker, chairman of the building committee, and also at the offices of Architects, Hayden, Wheeler & Schwend, Greensboro and Charlotte after April 5th, 1900, and bids will be opened in Greensboro on April 27th, 1900.

The successful bidder must give satisfactory bond to complete building by Nov. 1st, 1900. The city reserves the right to reject any or all bids.

J. M. Walker, Chairman.

THERE IS NO TROUBLE.

No Strife Between Races and No Danger of Any.

Our local news columns yesterday told of a negro preacher leaving town because of a letter threatening him with violence if he remained, on the ground that he was giving out statements among the colored people calculated to stir up bad feeling on their part towards the whites. The news came to this office straight that the said preacher, whose name is now given as Merritt, instead of Mathews, did indulge in language liable to create bad blood. It came from a colored man who should know what he is talking about.

Statements made this morning by a member of our best colored citizens question the truthfulness of the charges made against Merritt. They say he was not run out of Wilmington, and that so far as they know he has conducted himself here as a minister should and that he has not given any utterance that could be objected to by anybody. There is a suggestion by some of these men that the whole matter is one of spite, and was instigated by a few colored individuals who did not like Merritt and wanted him to leave. They believe a colored man wrote the letter which caused the preacher to leave.

In any view of the cause it is to be regretted. The relations between the races here have always been without strife and we have often boasted of our conservative and quiet colored population. The intelligent colored citizen here is as unlike the leading negro in the east as a civilized man is unlike a savage, and the leading men here, we believe, would quickly use their best efforts to nip in the bud any tendency toward trouble of any kind.

Standard Oil Co. Buys Union Mine.

Special to Charlotte Observer.

Salisbury, April 20.—The recent rumor that the Standard Oil Company was trying to secure a controling interest in the Union Copper Mine was not altogether an idle one, for now they own all the shares of stock except 100,000, retained by W. G. Newman. This means that the Standard Oil Company will have the controlling interest in the mine in the future. Your correspondent hasn't been able to learn the amount Mr. Newman received for his stock, but those who know most about the transaction state that the consideration was enormous. Mr. Newman still owns the Gold Hill mine and will continue in the county looking after the working of the Union Mine.

THE BEST IN THE WORLD.

We believe that Chamberlains's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own own and other papers we purchased a bottle to see how it would affect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs.—The Herald, Andersonville, Ind. For sale by C. E. Holton, druggist.

is where we stand in the lumber business. At the kicking post, as it were, in regard to prices.

First comes the owner of the timber. He just woke up to the value of it and wants double last year's prices. Then the sawmill man. He has not been making a fortune and thinks now he should share a little in the general prosperity.

They say to us: "We must have so much for our trees and work." After a while it is "up to you." Don't kick. You don't suppose we have nerve enough to put up prices unless they had first been put up on us. No, indeed. But prices are NOT high. They have been to low and are just now getting reasonable. Your children will be glad to build at double the price is now costs you. It is a trite, but true saying, if you want to build, "Now is the time."

And ours is the place to get the stuff.
